

## **WARS Trading Card Game complete card lists**

### **Incursion**

The WARS Trading Card Game, Decipher's first proprietary TCG, reintroduces the popular Star Wars CCG game engine with a completely new storyline set four centuries in the future, where three human factions are at war with each other and with two alien species intent on commandeering Earth and Mars for their own use. The premiere set, Incursion, includes 330 cards illustrated with original artwork. (Four of the cards are premium foils found only in the starter decks. These four plus foil versions of a subset of the cards listed here will appear on separate lists of premium, rare, and other foil cards.)

### **Nowhere to Hide**

It is 2392. Earthers, Gongen, Mavericks, Shi, and Quay are in all-out conflict on and around Ganymede to secure the mysterious element, truginium. In Nowhere to Hide, your faction will maneuver to acquire truginium assets, beef up their weapons using the new quickdraw keyword, and gain immunity from attrition with matching commanders. Nowhere to Hide includes 167 cards illustrated with original artwork. (Two of the cards are premium foils found only in the starter decks. These two plus foil versions of a subset of the cards listed here will appear on the separate lists of premium, rare, and other foil cards.)

Join the hunt for truginium. You have nowhere to hide.
